

NATURAL TOXINS, OCCURRENCE & HAZARDS TO ANIMAL AND HUMAN HEALTH

Parallel Symposium Session

21 June 2013

3rd National Conference of Medical Mycology, RSMMM

On behalf of the Organizing Committee of 3CNMM and the Romanian Study Group for Mycotoxins, we would like to invite all academics, individuals from research institutes, universities, national agencies, industry that are working and has research in this important field - **NATURAL TOXINS**, to exchange their opinions and experience.

The aim of Symposium is to bring together experts from academia, industry, government to discuss all aspects of biotoxins/natural toxins research and to increase awareness of human and animal health risk due to natural toxicant contamination and potential risk management options.

The event will focus on mycotoxins, phycotoxins, phytotoxins, bacterial toxins and zootoxins and will include:

- **Methods of analysis and sampling**
- **Toxicity, chemistry, biochemistry**
- **Occurrence in food, feed and air**
- **Biocontrol, prevention, risk assessment**
- **Legislation and regulatory aspects**

The Organizing Committee is pleased to announce that the Symposium will be part of the **3rd National Conference of Medical Mycology and ESCMID POSTGRADUATE EDUCATION COURSE "Antifungal Resistance and its Challenges in the Management of Invasive Fungal Infections"** and will be held in Sibiu, in 20-22 June 2013, Romania.

The meeting will comprise invited plenary lectures, oral presentations and poster sessions that will play an important part in the Symposium.

We would like to welcome all of you and hope that you will enjoy the scientific programme which reflects a broad spectrum of disciplines and covers a wide area of interest.
